 **Canada - Private Customers and companies** pay the products without VAT. You deduct 25% from the prices listed in our webshop. Customs fees may apply, so please check with your customs office.

Calculation example

To exclude VAT from a price using a 25% VAT rate, you can follow these steps:

1. The VAT rate is 25% (0.25)
2. Divide the price including VAT by (1 + VAT rate).

For example, if a product costs €1500 including VAT:

1. The VAT rate is 25%, which equals 0.25.
2. Calculate: $€1500 / (1 + 0.25) =$
€1500 / 1.25 = €1200

So, the **price excluding VAT is €1200**
